WORK EXPERIENCE

May 2023 – Present

Company: Pointwest **Position:** Senior Consultant

PROJECT HIGHLIGHTS

Project: Capacity Planning Tool (CPT) Upgrade / Rewrite

Tools and Technologies: Angular, AngularJS, Node.js

Role/Contributions:

- Led a small team in rewriting a legacy application, transitioning it to the latest versions of Angular and Node.js.
- Managed task distribution, assigning specific tickets to team members based on their strengths and expertise.
- Coordinated the planning, design, and implementation phases of the upgrade process.
- Oversaw code quality and performance improvements during the migration.

Project: ADB Knowledge Base Articles Cleanup

Tools and Technologies: Angular, Node.js, Azure GPT-4

Role/Contributions:

- Sole developer responsible for creating scripts to parse article contents and extract audit data (word count, category, broken links).
- Utilized Azure GPT-4 OpenAI to identify grammar issues, compliance rates, and suggest keywords.
- Developed an internal Content Management System (CMS) to organize audit results and statuses.
- Enabled editors to view audit results and apply changes directly in the CMS.

Project: Avenir CUE System

Tools and Technologies: Angular, Node.js, Azure Functions

Role/Contributions:

- Senior developer on the backend team, managing API endpoints for frontend integration.
- Optimized database queries and ensured API performance and scalability.
- Monitored application performance and resolved issues related to server-side logic.

Oct 2020 – Apr 2023

Company: Iridium Technology **Position:** Frontend Developer

PROJECT HIGHLIGHTS

Project: OMEGA BI System

Tools and Technologies: Angular, Cypress

Role/Contributions:

- Worked as a frontend developer on a product providing law firms with customizable cubes and dashboards.
- Implemented config-driven forms to dynamically render input fields.
- Utilized 3rd-party libraries for graphs, charts, and data-tables.
- Managed automated unit and end-to-end testing.
- Designed and created frontend design assets to improve user experience and application interface.

WORK EXPERIENCE

May 2020 – Oct 2020

Company: Mugna Tech **Position:** Full Stack Developer

PROJECT HIGHLIGHTS

Project: iRazoo

Tools and Technologies: Angular, Django (Python), Docker

Role/Contributions:

- Worked on a short-term project to upgrade a legacy web application.
- Updated the application's Python and Django versions to the latest standards.
- Containerized the application using Docker for easier deployment and scalability.
- Contributed to the frontend transition from AngularJS to React to improve user experience and performance.

Oct 2018 – Apr 2020

Company: Ingenuity Software **Position:** Backend Developer

PROJECT HIGHLIGHTS

Project: Flyt Solutions

Tools and Technologies: Odoo (Python), AngularJS, Docker

Role/Contributions:

- Contributed to building ERP systems to help clients manage inventory, payroll, HR, and other business functions.
- Implemented feature requests from clients to extend system functionality and meet business needs.
- Supported day-to-day maintenance and user issues resolution
- Conducted user training sessions to help clients effectively use the ERP system and its features.

Feb 2017 – Sep 2018

Company: Freelance **Position:** Web Developer

PROJECT HIGHLIGHTS

- Developed websites using CMS (WordPress, Shopify, Squarespace)
- Handled web administration and design
- Handled Database administration (MySQL, PostgreSQL)
- Implemented Data scraping scripts using Python and PHP
- Provided onsite SEO enhancement
